

ARRM

Section #1: About Yourself

Your Name: Linda Slocum
District you are running in: 50A

Question #1: Please provide a short background about yourself.

retired 8th grade teacher, 2 daughters who teach special
education (one in Richfield, one in an intermediate district)
running for my 5th term in the legislature, I strongly
advocated for my students especially those with special
needs (wrote 504 plans & IEP goals)

Question #2: What do you hope to accomplish by running for office? What will your main priorities be at the Capitol if you are elected?

My area of expertise is education and I have been
and hope to continue to expand ed. options for kids
and families so all kids can get a public school education
that works for them.

Question #3: What experience or connections, if any, do you have to the disability community?

I have worked with people (kids and adults) with
disabilities.

Section #2: Our Workforce Crisis

Question #1: Our industry is facing a workforce crisis. There are simply not enough people to provide the direct care needed for people with disabilities to lead independent lives. Given that the overwhelming majority of funding for disability services comes from the government, and low wages are a driving force behind high rates of staff turnover, what ideas would you offer for helping to create a livable wage for our direct support professionals and caregivers?

I am a co-author to raise the wage. I have also consistently supported adequate funding for the human capital to work with disabled and stay with the career - not leave because of low, nonlivable wages.

Question #2: As technology continues to become a bigger part of everyone's lives, there are numerous products that can be used by individuals with disabilities which offer them increased independence, including things as simple as apps on cell phones and tablets. Some technology can supplement staff while others can substitute for staff. Would you support the use of public dollars to increase the availability and use of technology?

Absolutely Yes! Please check my voting records.

Section #3: The Sustainability of our System

Question #1: Minnesota's Olmstead Plan includes a broad series of key activities our state must accomplish to ensure people with disabilities are living, learning, working and enjoying life in the most integrated setting appropriate for their needs. In 2015, a set of very ambitious goals and benchmarks were finalized and approved by the Minnesota courts to help ensure that the intent of the Olmstead Plan is realized. What is your role as a legislator to oversee and ensure that those goals are met?

Question #2: Affordable housing is an issue for many people in Minnesota. A cornerstone of Minnesota's Olmstead Plan is the opportunity for individuals with disabilities to live as independently as they choose. As a legislator how would you strategically expand availability of affordable housing with accessibility features for Minnesotans with disabilities?

Question #3: Our industry has seen an influx of "unfunded mandates" - items that cost providers additional money without subsequent compensation, such as the increase in minimum wage, the Affordable Care Act, increased regulatory fees and the new Department of Labor Overtime Rule to name a few. When the government adds a new mandate what is its responsibility in supporting government funded businesses to pay for those mandates?
